PROFESSIONAL SUMMARY

Computer Science graduate (National Diploma, NQF Level 6, Tshwane University of Technology, June 2026) and South African citizen, aged 24, seeking a Work-Integrated Learning (WIL) programme, graduate trainee position, or internship. Experienced in full-stack development, database-driven applications, REST APIs, and Agile collaboration, with strength in retail and eCommerce-relevant systems. Eager to learn through mentorship and job shadowing, contribute to cross-functional teams, and grow within a structured graduate programme.

TECHNICAL SKILLS

- Languages: Java, Kotlin, JavaScript, Python, SQL, HTML5, CSS3
- Frameworks: Spring Boot, React, React Native, JPA/Hibernate, JDBC
- Databases: PostgreSQL, MySQL, Oracle PL/SQL
- Tools: Git/GitHub, Docker, IntelliJ IDEA, NetBeans, Android Studio, Microsoft Office
- Practices: OOP, REST APIs, Agile/Scrum, SDLC, Unit Testing, QA, Debugging, System Design
- Retail/eCommerce: price comparison platforms, REST API-driven product data, Python web scraping, third-party API integration

EDUCATION

National Diploma in Computer Science (NQF Level 6)

Tshwane University of Technology (TUT), Pretoria, Gauteng | Feb 2023 - Jun 2026

- Modules: Internet Programming, Mobile Computing, OOP (Java), Database Programming (PL/SQL, MySQL/PostgreSQL), Discrete Structures, Software Engineering Fundamentals (Agile), Computer Architecture and Organisation, Operating Systems, Information Security, Software Projects.
- Built full-stack projects applying SDLC methodology across requirements, design, development, testing, and documentation phases.

National Senior Certificate

Mbangazeki High School, Giyani, Limpopo | Jun 2021

Subjects: Mathematics, Physical Sciences.

PROJECTS

SmartPrice SA – Retail Price Comparison Platform | Java, Spring Boot, PostgreSQL, React Native, Python, REST APIs | 2025 - Present

- Developing a web and mobile platform that aggregates and compares product prices across multiple South African retailers, directly relevant to retail operations, eCommerce, and merchandise buying contexts.
- Built a Python-based scraping pipeline and REST APIs to source live retailer pricing data, with a normalised PostgreSQL back-end and a React Native front-end for consumer-facing price tracking and basket optimisation.
- Delivered features through Agile sprint-based development with iterative delivery and version control discipline.

DSD Fleet Management System | Java, Spring Boot, React.js, PostgreSQL

- Built a full-stack vehicle fleet management platform for the South African Department of Social Development.
- Engineered role-based data isolation, real-time GPS tracking, and an integrated AI assistant (Nikita) to streamline government vehicle operations.

Elite Car Wash -- Booking & Management Platform | Java, Spring Boot, PostgreSQL, JavaScript, Yoco API, External APIs

- Created a car wash booking and management platform from the ground up for Witbank Elite Car Wash.
- Architected the full customer journey, including online booking, Yoco API payment integration, service tracking, and loyalty rewards.

- Developed a real-time management dashboard for staff, integrating Google Maps, EmailJS, and the Open-Meteo API.

WORK EXPERIENCE

Education Assistant -- Mashengani Primary School, Limpopo | Nov 2021 - Mar 2022

- Delivered computer literacy lessons to 30+ learners.
- Collaborated with teachers and communicated with parents and stakeholders.
- Maintained administrative records.

ACTIVITIES & CONTINUOUS LEARNING

- Hackathon participant: built functional prototypes under time constraints, demonstrating creativity, problem-solving, and team collaboration.
- Volunteer coding tutor: taught foundational programming to school learners, reinforcing own knowledge while contributing to community development.
- Self-directed learner: pursuing Oracle Java SE 17 Developer (1Z0-829) and AWS Cloud Practitioner (CLF-C02) certifications.

KEY COMPETENCIES

Solution-Oriented | Collaborative | Eager to Learn | Creative Problem-Solving | Agile/Scrum | Full-Stack Development | REST APIs | Database Design | eCommerce & Retail Systems | Networking & Relationship Building | Adaptability | Results Driven

ELIGIBILITY

South African citizen | References available upon request.
